Jim shares his knowledge and personal experiences to help others begin their spiritual journey. This class is part of a series which will include discussions and exercises to educate participants as well as encourage them to strengthen their own abilities. Colors, Numbers, and Symbols are all pieces of information and now that the Clairs have been strengthened we can receive this information more clearly and easily. Participants will learn the standard meanings to these pieces of information as well as develop their own methods to receive it and decipher it.

Psychic Class #6 – August: Psychometry

- * Grounding Meditation

Images and emotions of someone, whether living or passed, can be experienced by using clairtangency – the ability to receive information through touch. Psychometry is a way to connect with residual energy one leaves behind on objects or their energy that resonates from photographs. Participants are welcome to bring objects for others to read so they can pass along messages from loved ones who have passed into the spirit world.

Psychic Class #7 – September: Spirit Guides

Spirit Guides send us messages and information to enrich our lives and the lives of others. By meditating, we can develop a relationship with our Main Guides to receive their guidance as we continue along our spiritual path. When we have a strong bond with our Guides (or Guardian Angels) we receive messages more clearly and easily...and more often.
